## The Company

Glen Appliances came into existence in January 2000 and since then has been working relentlessly to provide value added solutions to millions of buyers across the nation, carving a niche for ourselves and leaving a lasting impact on the minds of the customer.

Deeply inspired by our discerning buyers our journey has been full of innovation. Our promise of better lives for our buyers inspires us and our thirst for innovation continues to get stronger by the day.

Our spirit of innovation is driven by our quest to find better ways of doing things in the Indian kitchen. This is backed by a commitment towards continued investments in capacity building, R & D and knowledge assets.

Our latest state-of-the-art plant at IMT, Faridabad is a live testimony to our spirit of innovative thinking and development and a tribute to the national vision of Make in India, to transform India into a global design and manufacturing hub.

## Green Facility

As an enterprise that has grown over decades, we remain committed to sustainability.

We understand that for any business to grow the well being of the environment and the society is paramount. We always put in our best and sincere efforts on reducing carbon footprints, energy and water conservation, usage of renewable energy and water recycling. Keeping in with our commitments our state-of-the-art plant derives all its power from the installed roof-top solar panels. These solar panels are rated to a capacity of 416KW of clean energy and make all the processes at the plant viable.

Water harvesting facilities, scientific waste collection & disposal system and green landscaping with a planned plantation of over 3000 trees make the facility truly green.

### **Research, Development & Quality Control**

At Glen Research and Development is one of our key strengths and is imperative to our business model. A state-of-the-art R & D centre has been developed as a vital part of the new facility, to take on the future and the impending challenges of innovative development. Equipped with most up-to-date testing apparatus, testing instruments and panels the centre is well supported by a strong team comprising of experienced and motivated engineers.

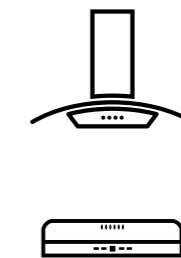

### **Customer Service**

Our Customer Service team is a key part of a mission and purpose – to prevent, solve problems and delight our customers. Our committed team supports customers for their service and support requirements through a number of modes. These include Online Chats, WhatsApp messaging, Messenger Chats and dedicated Helpline Numbers. In addition facilities like Online Warranty Registration, Customer Account Registration and Quick Enquiry enable most convenient access and make the experience a real pleasure.

Everyone who works for Customer Service is focused on preventing and solving problems for customers, from designing and developing self-service technologies, building and managing products and programs, to interacting directly with customers

**Designer Island Hoods**

**Bold, distinctive  
and stunning  
performance**

A well-engineered hood does more than just help to capture odours from your kitchen. It's the centre-piece of your kitchen and serves as the visual focal point.

Bold and distinctive, suspended over the central island unit, these hoods make for a stunning focal point in your kitchen. In this free-standing unit, stainless steel and glass come together to create a highly stylish yet functional piece that delivers an equally stunning performance.

**Filter-less Chimneys,  
with Motion Sensor**

**Make the cleaning  
process most  
convenient**

Glen brings you another innovation with its new filter less chimneys. No more regular cleaning, no choked filters, no dangers of oil droplets or residue. The housing heats up the blower and body to melt the oil deposits. The oil then flows and collects in a tray automatically.

Low on maintenance and high on suction power, these low noise chimneys come with advanced features like motion sensor control and a brush-less DC motor.

-  **INVERTER Technology:** Adjusts the RPM of the motor as per the requirement of air flow saving the energy.
-  **Saves Power:** Starting at a very low consumption of just 20W at Speed 1 saves power over 50% for the similar suction for AC motor.
-  **Variable R.P.M.:** BLDC motor operates at around 1000 RPM at speed 1 and Can go up to 2500 RPM at Stir Fry based on requirement.
-  **Low Noise:** As the motor works quietly and gives better suction is comparatively is more silent.

Built-in Glass Hobs  
**Italian double  
ring burner**  
specially designed for  
Indian cooking

Indian cooking requires much more heat than the low heat European sealed burners can provide and we are used to a double ring of flame for our cooking. Glen hobs now come with international double ring burners specially designed & developed by Sabaf, Italy for Indian cooking.

**STRONG VITREOUS  
ENAMELLED PAN  
SUPPORTS**

Robust and sturdy supports help to easily accommodate large and heavy vessels.

**BAKELITE KNOBS**  
Smart & elegant bakelite knobs for that firm grip and professional look. These international knobs are strong and sturdy to use.

**TOUGHENED BLACK  
GLASS 8 MM THICK**  
The elegant black glass surface doesn't just look stunning - it makes your Glen hob a breeze to clean, and resists scratches, stains, impact and heat.

**HIGH PRECISION GAS  
VALVE FOR NO SIM-OFF**  
High precision gas valves for total safety and a perfect flame control. No more gas leakages and no more sim-off.

### Glass Cooktops

**Stronger forged brass burners with flame failure device**

A forged brass burner has a higher specific strength as well as higher toughness in comparison to a casting. This makes the burner lighter, stiffer and less susceptible to cracking than casting. Forging puts energy into the metal and changes the internal grain structure (crystalline), giving it additional strength.

**FLAME FAILURE DEVICE**  
A unique safety mechanism, the device cuts off the gas supply the minute the flame is accidentally extinguished due to any liquid boiling over. Now no more chances of accidents or fire. Truly nothing values more than safety.

**STRONGER FORGED BRASS BURNERS**  
Now get the best of both worlds, the extra strong, long lasting brass burners made with forged technology now come with the high energy, high efficiency Double Ring Flame. Specially designed for Indian cooking these are available in a choice of burner configurations.

**STRONG VITREOUS ENAMELLED PAN SUPPORTS**  
Robust and sturdy supports help to easily accommodate large and heavy vessels.
