GREEN PRODUCTS WITH WATER SAVING TECHNOLOGY

GREEN PRODUCTS FOR A GREENER PLANET

We, at CERA, stand for a greener planet. Which is why, we offer ecological hygenic solutions. Simply put, we offer products that save water and in turn, protect the planet. With a wide range of water-saving products with futuristic eco-designs and advanced technology, we strive for a better future. We call this "an idea for a better society". Let's have a look on how we do this:

A range of water-efficient EWCs

In today's time, it is important to make EWCs that saves precious water. More than 90% of CERA EWCs are designed to save 35% water in each usage. This is possible due to special design of inner bowl that needs only 3.9 litres flushing water instead of regular 6 litres and yet offer effective cleaning.

Sensor urinals

Here's a smart way to a cleaner and healthier bathroom – the sensor urinals. Apart from the aesthetic design and stylish looks, these innovative products also offer 'sense presence technology', which initiates automatic flush mechanism. It flushes just 0.75 litres of water in every use, which includes pre and post use flushing.

Futuristic sensor taps

CERA offers range of sensor taps which due to automatic on-off system save upto 70% water in every usage. What's more, your safety has always been a priority to us. And we have designed CERA's range of sensor taps with zero contact, ensuring 100% safety.

Faucets with smart water-saving aerators

Taking forward the water saving concept, faucets manufactured at Cera are awarded a number of certifications such as WEP-I, GRIHA and GreenPro.

All the CERA faucets are fitted with aerator, which mixes air with water & gives splash-free gentle flow. Cera also offers different water saving aerators which can save more than 50% water in every usage.

Intelligent Eco-flow showers with turbo-air technology

Crafted with style, our Eco-flow showers are products of inspiring technology. They let you indulge in the luxury of an invigorating shower while saving water as well.

With Turbo-Air technology, our Eco-flow showers reduce water usage and encourage low scale buildup. By mixing air in the flow, our showers provide an oxy-rich, full flow experience while dispensing nearly 50% lesser water than conventional showers. Our showers regulate the flow according to water pressure, giving user a uniform and soft showering experience. These showers save big on water, electricity and energy.

FOR A TOUCH-FREE FLUSH EXPERIENCE

U N B O X I N G
I n n o v a t i o n

We've always believed here at Cera that innovation is never an end-goal to work towards. Rather, it's an everyday journey of raising the standards of our products to new levels. Innovation is hard work, but the result of what it leads to, is worth it every time. Our Vibe-Sense technology for EWCs is just one example of Cera building the future of bathroom experiences, one step at a time. We innovate because of you and your experience shapes our next steps. Innovation is a two-way street for us, a path we love walking with you.

Let's Unbox innovation with Cera.

Sophistication meets hygiene with Cera's brand new range of touchless sensor EWCs. Get it in your home and experience the future with a touchless bathroom experience.

A simple hand wave activates the reduced flush.

A longer motion activates the full flush.

THIS IS YOUR SPACE. PLAY IT YOUR WAY.

Play it your way with a combination of sensational style and perfect performance. Presenting the new collection of sanitaryware, faucets, tiles and other products by Cera to create a bathroom space that is worthy of admiration and brimming with elegance.

SANITARYWARE PRODUCT FEATURES

The bathroom is one of the most important rooms in your home. So, the design of the fitting matters, how much water it uses and how well it flushes. A good EWC conserves water and generates enough power to clean the bowl in a single flush.

Glazed Traps in EWCs

CERA EWC's are fully glazed which includes inside of the trap to ensure superior hygiene and total waste removal.

Rimless EWCs

A rimless EWC uses direct flush technique that pushes water into the bowl horizontally along the sides. There are no hidden crevices for waste to enter and get stuck. It produces a cleaner flush every time.

EWCs with Siphonic flushing with jets

A siphonic jet toilet features an S-shaped trap way, with one end connected into the inlet of the bowl and the other end connected with the bowl underneath the drain pipe. This trap way design ensures powerful flushing & total waste removal.

EWCs with nano-glaze

The nano glaze is new generation anti-bacterial technology which seals microscopic pores of ceramic surface so that dirt will not settle on it offering water repellent, stain resistant & scratch resistant ceramic surface ensuring utmost hygiene.

EWCs with duroplast seat cover

Duroplast seat covers are fast replacing the conventional seat covers. They give a flawless look due to their ceramic like finish and are also scratch resistant & durable.

With advancing technology, toilet seat covers now come with specific add-on like click and remove technique that allows easy removal of seat cover for thorough cleaning.

Thin rim tabletop wash basins

CERA's thin rim wash basins are a sight to behold with their modern sleek lines and finesse of shape-without sacrificing any of their functionality or durability.

These basins have easy to clean 5 mm thin rim improving overall aesthetics.

Notes: • Product upgradation is a continuous process in CERA. Therefore, the specifications may change from time to time. • Please verify the actual product for correct specifications before purchase. • The colours of ceramic/plastic/stainless steel and other material used for manufacturing CERA range of products and those of printing inks do not match exactly. Therefore, colour selection may be done from actual products. • Whilst every precaution is taken in the compilation of our price list, we do not accept responsibility for any error or omission. • All dimensions are in millimetre (nominal). • Dimensional variations are inherent character of ceramic products and tolerances may be ±2% or as allowed/specified by BIS or Company's quality norms. • Prices are subject to change without prior notice. • Warranty of the product will become null and void if the installation is not done as recommended by the Company and/or if not done by qualified and trained technicians. • This supersedes all previous pricelists.

Faucet Product Features

When it comes to doing up a bathroom, the fittings play an important role too. Apart from the utility of the faucets, they also increase the style quotient of a bathroom. And with the ever-evolving technology, they also allow us to save on water.

European Cartridges

A cartridge is a main functional part of faucet. It mixes hot & cold water to user's comfort level, It also serves as regulator of water quantity.

Cera's cartridges are tested for 3 lakhs cycles & are suitable for 0.5-5 bar water pressure conditions.

Aerators

Taking forward the water saving concept, faucets manufactured at Cera are awarded a number of certifications such as WEP-I, GRIHA and GreenPro.

All the CERA faucets are fitted with aerator, which mixes air with water & gives splash-free gentle flow. Also we offer different water saving aerators which can save more than 50% water in every usage.

Evershine product finish & high corrosion resistance

The chrome plating, the surface of any faucets adds an impeccable finish to the product.

CERA faucets have a 11-13 microns thick nickle layer and 0.3-0.5 microns thick chrome plating which is much above the industry standards that result in better finish and durability. Also they are tested for 200 hours of neutral salt spray test ensuring corrosion free long life.

Food grade rubber parts & lubricants

Quality Nylon and rubber parts - Food grade rubber parts - EPDM / Nitrile quality.

Special food grade silicon lubricants - Unacted by petroleum products / Clean odourless water.

Being classified as a food-grade lubricant means that the grease is not toxic when consumed and it doesn't have toxic additives like lead, lithium and zinc.

Warranty

CERA products have been manufactured under the highest standards of quality and workmanship. CERA are backed by prompt and efficient after-sales service.

CERA faucets are warranted to be free of manufacturing defects in the material and workmanship for a period of 15 years in residential and 5 years in commercial use.
